Combined Action Platoon (CAP) - Program initiated in mid 1965.

CAP - ~~xxxxxx~~ Has 50 members - ~~xxxxxx~~ consisting of 14 U.S. marines, Plus one (1) U.S. marine medic, and a 35 member PF team.

Chain of Command (Organization):

4 CAG - Combined Action Groups

20 CAC - Combined Action Companies

114 CAP - Combined Action Platoons.

Deployment of CAP's:

18 in Quang Tri Prov

29 in Thua Thien Prov

36 in Quang ~~XX~~ Nam

31 in Quang Ngai and Quang Tin

117 PF platoons associated with CAPs.

144 New PF pl to be CAPs

G-2 --- COL CANTON

1969 - has seen a change in enemy tactics, switched from large scale attacks to the use of small units for primarily guerrilla tactics. He (enemy) feels his losses would be less by small unit actions. Also easier to support. Has become more selective in targeting, I.E. pacification efforts, etc.

On the average VC units are about 44% NVA personnel.

LF recruitment is down, this is accredited primarily to the success of the pacification program.

Shortage of food.

INFILTRATION

Since mid-Oct infil has been on the rise.

Massive efforts to improve the infil mechanism - re-establishing BT's repairing roadx system, etc.

Indications are that the 69 infil level ~~will~~ will equate that of 67.

SENSORS:

activity in the DMZ has been rather high - some trucks noted but mostly personnel.
